SKILLS

Programming Language	C# , VB.Net, JavaScript,Java
Database	SQL Server, MySQL, MS Access
Operating System	Window7,10
Web Server	IIS
Technology	ReactJS,ASP.NET Core MVC, ASP.NET Core Web API,
	ASP.NET web forms,EntityFrameWork core, Dapper,
	ADO.net
Others	Azure Devops, TFS, Bootstrap, HTML, CSS,AJAX

PROFFESSIONAL EXPERIENCE (2+ YEARS)

Software Engineer   Jan 2022 - till date
HCL Technologies ltd   *Chennai,India*

- Working as full stack developer in dot net frameworks and MS SQL

- Developed for product enhancement and product maintenance

- Led 2 projects as a full stack developer are named Project Compliance Index and People Supply chain.

- My experience involves enhancing application features, good communication skill,meeting business requirements,independent working under pressure and delivering new features.

- Performing task with good logical and analytical thinking to prioritise the task.

PROJECTS

1.Project Compliance Index

Role:	Full stack Developer and Customer support
Technologies	ReactJS , Asp.net web API Core,
	Entity Framework Core, ADO.net ,VB.net, Asp.net web
	forms,JQuery,AJAX,Azure Devops, TFS,MS SQL

This web application is used for quality analyst and project managers to audit the projects based on several checkpoints and track the non-compliant of the project defects where project manager has to meet the project guidelines. My role was working in full stack contribution. I developed few modules with full stack contribution and with business constraints.

2.People Supply Chain

Role:	Full stack Developer
Technologies	Asp.net mvc core , Asp.net web API COre,
	Dapper, JQuery,AJAX, Azure Devops, TFS, MS SQL

This project is a tool to automate the offline process of recruiting process where the hiring manager and level heads will includes in the workflow. This application will accept the excel file from the requester to upload the people

demand for the several levels and financial year. It was developed from scratch to meet the business requirement. By this project , my learning point is database structuring , Architectural design of the application and Microsoft multi factor authentication

3.ERS Analytics
Role: Full stack Developer
Technologies   Asp.net mvc ,ADO.net,AJAX JQuery, Azure Devops, TFS, MS SQL

This a tracking application which will track release process of the particular level. It will provide Report data for release process of the projects. It contains several pages for Power BI dashboard with business data.

EXTRA-CURRICULAR ACTIVITIES

- Workshop participating in scalar and udemy to improve career growth and learning new technologies.

- Actively play games like cricket, vollyball and carrom.

- I am energetic, computer savvy, a good team player and result-oriented.

INTEREST

- NodeJS and ExpressJS

- Blockchain

- Data Analytics(Power BI)

LEADERSHIP

- Admin for the Project compliance Index and People Supply chain where 3000+ users are getting access on it everyday. Actively involved in customer intraction and business requirement gathering and involving Knowlegde transfer session with customers.
